EDUCATION

JAIN (DEEMED-TO-BE UNIVERSITY)   May 2024 - Present
MASTERS IN COMPUTER APPLICATIONS   Jayanagar, Bengaluru, Karnataka 560069

GIRIJANANDA CHOWDHURY UNIVERSITY   August 2020 - July 2023
BACHELOR OF COMPUTER APPLICATION   Guwahati,Assam

SKILLS

PROGRAMMING LANGUAGES	Javascript, Typescript, Java
LIBRARIES/FRAMEWORKS	React.js, Next.js, Tailwind CSS, Node.js, Express.js, Jest Testing, REST, JWT (JSON Web Tokens), Next Auth, Redux
TOOLS / PLATFORMS	Git, GitHub, Docker, Vercel
DATABASES	MongoDB, PostgreSQL

PROJECTS / OPEN-SOURCE

TWIVA | LINK MongoDB, Express.js, React.js, Node.js, JWT, WebSocket, RESTful APIs, Git, GitHub, Tailwind CSS

- Built a complete web application using a MERN (MongoDB, Express.js, React.js, Node.js) stack, enabling seamless interaction between front-end and back-end components on both desktop and mobile devices.
- User Authentication and Authorization: Implemented secure user authentication using JWT (JSON Web Tokens), allowing users to register, log in, and manage their profiles securely.
- Dynamic CRUD Operations: Developed dynamic Create, Read, Update, and Delete (CRUD) functionalities for managing tweets, user profiles, and comments, providing a robust user experience.
- Database Design and Management: Designed and implemented a NoSQL database using MongoDB to store user data and tweets, ensuring efficient data retrieval and management.

MY-FIGMA | LINK   Next.js, TypeScript, Tailwind CSS, Liveblocks.

- UI/UX Design and Prototyping: Designed user interfaces and interactive prototypes using Figma, focusing on user experience and visual appeal to enhance usability.
- Design Systems and Components: Developed a design system with reusable components, ensuring consistency across various screens and improving design efficiency.
- Collaboration and Feedback: Worked collaboratively with team members to gather feedback and iterate on designs, utilizing Figma's commenting and version control features for effective communication.

REACT FOOD | LINK   React.js, JavaScript, HTML, CSS

- Developed a Responsive Food Delivery Application: Utilized React.js and Tailwind CSS to create a visually appealing and user-friendly interface, ensuring responsiveness across various devices.
- Employed React's Context API for state management, facilitating efficient data flow and enhancing the overall performance of the application.
- Followed best coding practices, including modular architecture and component reusability, ensuring maintainability and scalability of the application.
